

**Thank you for choosing TriLash!** In just two easy applications a day, you can achieve the long, full, voluminous lashes you have always wanted. Consistency and daily use is the key to the best results.

## HOW TO APPLY

### STEP 1

Before applying make sure the eye is free and clean of all make up and that all face and eye creams have been applied.

### STEP 2

Take the applicator and apply a thin line along the upper lash line, by drawing the brush of the applicator just above the lashes. Next apply to lashes starting at the base and moving outward to the tips of the lashes. TriLash may also be applied to lower lashes. Repeat application on other eye.

### STEP 3

For best results apply twice daily, once in the morning and once at night. With suggested and consistent use, full voluminous lashes can be achieved.

## IMPORTANT INFORMATION

1. Keep the applicator clean and do not touch or allow it to touch any surface other than the eye
2. Remove contact lenses before application. They may be replaced 15 min after application.
3. Discontinued, or inconsistency in use will inhibit or reverse results back to appearance before initial use
4. If any irritation occurs, rinse area with water and discontinue use immediately.
5. Keep in cool dry place, between 50F to 90F
6. Keep away from children
7. Single user per container, do not share TriLash
8. Do not use in conjunction with any other lash enhancing product
9. Do not insert applicator directly into eye

## ENHANCERS

**Aloe barbadensis** - plant extract that is a natural conditioner and has anti-inflammatory antioxidants, and antibacterial qualities.

Believed to work by supplying the scalp with nutrients it needs to grow strong healthy hair.

**Marigold (Calendula officinalis)** - this plant extract is healing and antiseptic, and helps strengthen hair.

**Burdock root extract (Arctium lappa)** - contains vitamins B complex and E and helps with the overall condition and appearance of hair.

**Green tea extract (Camellia sinensis)**- strong antioxidant for hair and scalp health. Also believed to be a DHT blocker which prevents hair loss.

**Liquorice root extract (Glycyrrhiza glabra)**- believed to reduce hair loss.
